wear capes ...  
**SOME WEAR  
BANDAIDS.**

**Our kids deserve to be protected, too.**  
**THE COVID-19 VACCINE IS SAFE FOR CHILDREN.**

**The CDC has recommended that all children ages 5 and up get vaccinated against COVID-19.**

The vaccines have proven to be safe and effective in children as young as 5 years old. The vaccine is so safe that the CDC and American Academy of Pediatrics (AAP) urge all eligible people to get the COVID-19 vaccine as soon as it is available to them. When your child gets vaccinated against COVID-19, they also have a better chance at staying in school and participating in the activities they enjoy.

*"This vaccine for children has passed rigorous clinical trials and is safe – just like the other common vaccines we recommend our children receive."*

**DR. WANDA THOMAS**  
PROFESSOR OF  
PEDIATRICS,  
LSU Health  
Shreveport

*"These vaccines are as safe and as effective as any vaccines we've ever had for any disease."*
